PROV. PUBLIC WORKS DEPT.
VICTORIA, B.C.
NOV 27 1944

FOR DEPARTMENTAL AND INTERDEPARTMENTAL CORRESPONDENCE ONLY
ANSWERED
FILED
DATE

Confirming my telephone conversation with you this morning, kindly arrange to have Mr. Davies make a traverse survey from the end of the existing public highway in Section 57 through Sections 54, 57, 56, 55, 52, 51 and 46 to the Beatty-Johnstone Road for the purpose of gazetting same as public highway.

It will be necessary to have a definite tie with the lot corner at the point of commencement and also at the terminal point.

As we wish to have the gazette notice published next Thursday, please arrange to have the survey placed in hand immediately.

In case there should be any claim for compensation for the existing road, please arrange to make a trip over the road and make a valuation of same as this date and submit same in writing.

A.L. Carruthers,
Chief Engineer.
